Speak the universal language of VetXML

Remove the language barrier and share electronic information quicker and faster than ever before!

In today's technology driven world, there is a constant need to communicate across a range of services. With VetXML, electronic dialogues between practice and supplier have been standardised for easier communications in the future.

www.vetxml.org

VetXML - Setting the standard...

Aided by SPVS, the VetXML Consortium supports the standardisation of digital information transferred between the veterinary profession. This has resulted in greater integration between not only practice management systems but also with other veterinary suppliers, including insurance and pharmaceutical companies and laboratories.

One Platform - One Language!

VetEnvoy is the enabling platform for VetXML and provides a Hub that makes it easier to securely deliver data and manage workflow processes.

How VetEnvoy can benefit your practice:

- Save valuable time
- Reduce administration costs
- Seamless integration - go paperless!
- Increased security of transferred data
- Looks professional
- Quicker and easier to send & receive data

"VetEnvoy is truly revolutionary and the Society is proud to be a leading partner in bringing the system to fruition" **Richard Hillman, SPVS**

Insurance Claims

eClaims was the first VetEnvoy service and enables the secure, seamless and paperless transfer of insurance claims from your practice to the insurance company.

New translations available...

Through VetEnvoy, there are more services that can deliver seamless data transfer:

Lab Report - this service allows lab reports to be easily transferred electronically, directly into the relevant animal record.

Vet Viewer Benchmarking Service - compare your practice activity with other participating practices.

Microchip Registration - you can now register animal's details electronically.

With over 300 practice groups already signed up, isn't it time you spoke the language?

"We are saving around 20 hours a month of staff time. Now the nurses can spend more time doing what they were trained to do."

"Brilliant. Insurance Claims were the bane of my life. It used to take 7 to 10 days to settle claims - now it takes just 2 to 3. It is easy and simple to use."

Companies speaking the language:

Practice Management Systems

- AT Veterinary Systems
- Jupiter
- Medivet
- Midshire (Ventana)
- Teleos
- Vet-One
- Vet solutions (PremVet v3; RoboVet 5)

Other Suppliers
